# CYBER SECURITY TRAINING FOR VETERANS

## Applications Now Open!

The Alan B. Levan | NSU Broward Center of Innovation, in affiliation with Maverc Technologies, is seeking applicants for multiple Cyber Security Training programs aimed at enhancing the cybersecurity skills and capabilities of Veterans including those in the professional workforce. These trainings are being offered at no cost to Veterans.

## PROGRAM HIGHLIGHTS

### Hands-on Experience
through immersive simulations and live fire exercises in a military-grade, 1,500 sq. ft. Cyber Range, one of its kind in the Southeast U.S.

### Industry-Aligned
curriculum based on frameworks like NIST NICE and MITRE ATT&CK.

### Mentorship & Support
from seasoned cybersecurity professionals.

### Career-Readiness
workshops covering resume building, interview skills, and job networking.

### PROGRAM DATES
- First Session: Nov. 4 – Dec. 20, 2024
- Second Session: Jan. 13 – Feb. 17, 2025
- Virtual Only Session: Nov. 4 – Feb. 17, 2025
  *(Limited seats available; a 12-week commitment is required for the virtual only session.)*

### TRAINING FORMAT
- Virtual and hybrid sessions
- Live & virtual events scheduled from 12:00 PM to 5:00 PM EST
- 20 hours per week commitment

### LOCATION
Cyber Range at Alan B. Levan | NSU Broward Center of Innovation 3100 Ray Ferrero JR. Blvd. - Alvin Sherman Library, Research, and IT Center at NSU (5th Floor) Fort Lauderdale, FL 33314

The cyber field is growing rapidly and individuals with cyber skills are in high demand with opportunities for professional advancement.

| NEED FOR CYBER SKILLS | NUMBER OF JOBS AVAILABLE | SALARY RANGES | GROWTH OPPORTUNITIES |
|---|---|---|---|
| The global cybersecurity workforse gap is estimated at **3.4 MILLION** professionals | There's approximately **3.5 MILLION** unfilled cybersecurity positions globally, with over **750,000** in the U.S alone. | Entry-level: **$58,000**/year, Mid-career: **$91,490**/year, Senior Roles (CISOs) **$215,000**/year | The Cybersecurity market is projected to grow from **$193.73B** in 2024 to **$562.72B** by 2032, with a compoundannual growth rate (CAGR) of 14.3% |

## GENERAL REQUIREMENTS

- Veterans with a foundational knowledge in Cybersecurity or related fields such as Network Administration, Software Engineering, or Data Science.

- Alternatively, possess at least 4 CEU hours from a cybersecurity training or certification course.

- Applicants should have strong communication skills, moral character, and demonstrate an interest in a cybersecurity career through coursework, internships, or independent learning activities.

## PROGRAM TRACKS

### Governance, Risk, and Compliance (GRC)

Explore critical DoD and U.S. government cybersecurity policy directives, including DFARS and CMMC, and gain hands-on experience developing and implementing cybersecurity policies and governance structures.

### Security Operations Center (SOC) 101

Learn the core functions, tools, and daily operational processes of a SOC, engage in hands-on labs, and work with a live SOC environment to build skills in threat hunting, incident response, and reporting using industry-grade security tools.

## WHO SHOULD APPLY?

- Veterans with a passion for cybersecurity

- Candidates with a background in Network Security, Software Engineering, Forensics, or related fields

- **Application Deadline: October 26, 2024, by 8:00 PM EST**

## HOW TO APPLY

- Submit your application at: https://wkf.ms/3Ng88uh

- For questions, contact: CyberAcademy@Maverc.com
  Orientation and program information will be sent out immediately upon acceptance.
